About Me

A highly motivated and goal-driven individual that is hungry to learn new skills. Well-versed with Web Development Languages such as Html, CSS, and JavaScript. Also in Microsoft Office and Google Suite. Seeking a job in a creative team where I can apply my knowledge of diverse skill sets. I am a hardworking person and have the ability to manage work under pressure.

In love with coding. A geek with a passion for teaching programming and being able to help fellow programmers understand their chosen field.
